

Video transcript: Linda Jones Welcome

Approximate time: 1:36

Welcome and thank you for being a UnitedHealthcare member! I am excited to welcome you to our new retiree virtual education center.

We designed this education center to be a place where – in this new virtual world we are living in – you and your family members can go to learn about your benefits and services for the upcoming plan year.

We are here to help make each step of your health care experience easier. This site is meant to serve as a guide to help you better understand your benefits, find providers, manage costs and to get the most out of your health plan.

Through this virtual education center, UnitedHealthcare will walk you through information regarding the basics of Medicare, the benefits offered in your plan, programs available to you through your plan, and how to enroll.

We want to help you make the most of your health plan and connect you to the providers for the care you may need. We will tell you all about the programs, resources and tools available to you as a member.

At UnitedHealthcare, we are dedicated to help you live a healthier life. So welcome to our family of over 1.4 million retirees across the country.

Now, it's time to access the Virtual Education Center for your current and future health plan updates.

Let's get started!
